Role: Structural Lead on the Construction Documents Team

Bachelor of Design in Architecture, University of Florida, 2014

Distinction: Magna cum Laude

Study Abroad Program, Vicenza Institute of Architecture, spring 2014

University of Florida in Vicenza, Italy

EXPERIENCE

Intern Architect | Designer

Geoffrey Mouen Architects, Celebration, FL, September 2017-Present

- Work alongside the licensed architect to design exclusive, high-end residences for homeowners and builders around the Central Florida area.
- Currently developing multi-million dollar homes in the Golden Oak neighborhood at the Walt Disney World Resort.
- Prepare presentation documents to illustrate to the client our vision and design for each project. These drawings include color renderings, digital 3D BIM models, and graphic plans, elevations, and sections.
- Produce full construction documents, using Revit and AutoCAD software, which are used for county permitting and subsequent building processes.
- Coordinate and review truss engineering and structural engineering documents for confirmation of synchronization with the architectural drawings and design intent.

Architectural Intern

Barker Rinker Seacat Architecture, Denver, CO, June 2015-June 2017

- Generate construction documents for community and municipal projects throughout the western region using Revit software; examples include neighborhood community and recreation centers, a police and fire training facility, and tenant improvement mixed-use projects.
- Review and coordinate submittals and RFI packets with clients and consultants through email communication and meetings using Bluebeam and Newforma.
- Formulate design presentations and present to colleagues about new digital technologies.
- Document and produce field reports during CA after each site visit.

INVOLVEMENT | AWARDS | PUBLICATIONS

Member, Students for Classical Architecture with CARTA at CU Denver, 2016-2017

AIA Small Project Awards, Colorado Outward Bound School (COBS) Micro Cabins, 2017
